## **DETAILED ACTION**

### ***Priority***

Acknowledgment is made of applicant's claim for priority under 35 U.S.C. 119(a)-(d) based upon an application filed in Israel, PCT/IL99/00369, on 7/7/1999. A claim for priority under 35 U.S.C. 119(a)-(d) cannot be based on said application, since the United States application was filed more than twelve months thereafter. Furthermore, the certified copy of the PCT application was never received.

### ***Allowable Subject Matter***

Claims 14-28 are allowed.

The following is an examiner's statement of reasons for allowance: The Applicant's invention is directed to a method/system of transferring functionality and certificates from one device to another device. The primary reason for allowance of these claims is the newly presented claim recites an absence of trusted third party in the recited steps.

The closest prior of record that discloses the instant invention is US Patent Pub 2002/0112157 to Doyle et al.(hereinafter Doyle), where Doyle discloses the authenticating of records without the trusted third party see Abstract. Doyle discloses certificates being generated by the server for the client using the certificate information gathered from client and the issuing policy see Par. 0432-0438. However, Doyle's invention is not related to transferring functionality from one device to another device as claimed in the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
